

Revisions to USP33–NF28

Published April 2010

[Revisions and Commentary](#)

Monographs:

OLIVE OIL PF 35(1) Pg. 126 Chemical Info, Definition, Packaging and storage, Identification, Fatty acid composition, Specific gravity <841>, Cottonseed oil, Peanut oil, Sesame oil, Teaseed oil, Absence of sesame oil, Solidification range of fatty acids <401>, Free fatty acids <401>, Acid value <401>, Peroxide value <401>, Unsaponifiable matter <401>, Specific absorbance, Iodine value <401>, Saponification value <401>, Water, Method Ic <921>, Alkaline impurities, Sterol composition [Hong Wang](#) ONDANSETRON ORALLY DISINTEGRATING TABLETS PF 34(6) Pg. 1467 Water <921> [Ravi Ravichandran](#) OSELTAMIVIR PHOSPHATE PF 34(6) Pg. 1468 Title, Chemical Info, Definition, Packaging and storage, USP Reference standards <11>, Identification, Water, Method I <921>, Specific rotation <781S>, Heavy metals, <231>, Limit of tributyl phosphine oxide, Related compounds, Assay [Behnam Davani](#) OSELTAMIVIR PHOSPHATE CAPSULES PF 34(6) Pg. 1471 Title, Definition, Packaging and storage, USP Reference standards <11>, Identification, Dissolution <711>, Uniformity of dosage units <905>, Related compounds, Assay [Behnam Davani](#) OXALIPLATIN FOR INJECTION PF 34(6) Pg. 1473 Title, Definition, Packaging and storage, Labeling, USP Reference standards <11>, Constituted solution, Identification, Bacterial endotoxins <85>, Sterility <71>, pH <791>, Particulate matter <788>, Water, Method I <921>, Uniformity of dosage units <905>, Limit of oxalic acid, Limit of (SP-4-2)-diaqua[(1R,2R)-cyclohexane-1,2-diamine-N,N']platinum, Limit of related compound C and unspecified impurities, Other requirements, Assay [Feiwen Mao](#) OXCARBAZEPINE PF 34(5) Pg. 1177 Title, Chemical Info, Definition, Packaging and storage, USP Reference standards <11>, Identification, Water, Method Ia <921>, Residue on ignition <281>, Heavy metals, Method II <231>, Assay [Ravi Ravichandran](#) OXYBUTYNIN CHLORIDE TABLETS PF 35(1) Pg. 93 Dissolution <711> [Margareth Marques](#) OXYCODONE HYDROCHLORIDE PF 34(6) Pg. 1480 USP Reference standards <11>, Limit of oxycodone related compound A (14-hydroxycodeinone) and oxycodone related compound C (codeinone), Chromatographic purity [Clydewyn Anthony](#) PEANUT OIL PF 34(6) Pg. 1525 Chemical Info, Definition, Labeling, Identification, Specific gravity <841>, Cottonseed oil, Solidification range of fatty acids <401>, Free fatty acids <401>, Acid value <401>, Peroxide value <401>, Iodine value <401>, Saponification value <401>, Refractive index <831>, Heavy metals, Method II <231>, Water, Method I <921>, Alkaline impurities, Other requirements [Hong Wang](#) LIQUEFIED PHENOL PF 35(1) Pg. 93 Identification, Other requirements [Feiwen Mao](#) POLYOXYL 15 HYDROXYSTEARATE PF 35(1) Pg. 128 Title, Chemical Info, Definition, Packaging and storage, USP Reference standards <11>, Identification, Acid value <401>, Hydroxyl value <401>, Iodine value, Method I <401>, Peroxide value <401>, Saponification value <401>, Total ash <561>, Water, Method Ia <921>, Limit of nickel, Limit of free ethylene oxide and dioxane, Free polyethylene glycols [Hong Wang](#) POLYVINYL ACETATE PF 34(6) Pg. 1526 Title, Chemical Info, Definition, Packaging and storage, Labeling, USP Reference standards <11>, Identification, Acid value <401>, Ester value <401>, Loss on drying <731>, Residue on ignition <281>, Heavy metals, Method II <231>, Residual peroxides, Limit of vinyl acetate, Average molecular weight and molecular weight distribution [Hong Wang](#) POLYVINYL ACETATE DISPERSION PF 35(1) Pg. 134 Title, Definition, Packaging and storage, Labeling, USP Reference standards <11>, Identification, Microbial limits <61>, pH <791>, Loss on drying <731>, Residue on ignition <281>, Coagulum content, Stabilizers or surface active agents, Limit of vinyl acetate, Limit of acetic acid/acetate, Assay [Hong Wang](#) POTASSIUM IODIDE DELAYED-RELEASE TABLETS PF 34(6) Pg. 1481 Identification, Other requirements [Behnam Davani](#) PROPAFENONE HYDROCHLORIDE PF 35(1) Pg. 94 USP Reference standards <11>, Chromatographic purity, Related compounds [Sujatha Ramakrishna](#) PYRANTEL PAMOATE PF 34(6) Pg. 1482 USP Reference standards <11>, Related compounds [Behnam Davani](#) REAGENTS, INDICATORS AND SOLUTIONS - INTRODUCTION Introduction [Margareth Marques](#) REAGENT SPECIFICATIONS Alcohol, Ammonium Molybdate, Chromotropic Acid, Chromotropic Acid Disodium Salt, Phosphorous Acid, Potassium Metabisulfite, Potassium Sodium Tartrate, Sodium Biphenyl, Methyl Red [Margareth Marques](#) RITONAVIR PF 35(1) Pg. 95 Identification [Behnam Davani](#) SERTRALINE HYDROCHLORIDE PF 34(5) Pg. 1189 Title, Chemical Info, Definition, Packaging and storage, USP Reference standards <11>, Identification, Water, Method I <921>, Residue on

ignition <281>, Heavy metals, Method II <231>, Limit of (R,R) sertraline hydrochloride, Assay [Ravi Ravichandran](#)
SIBUTRAMINE HYDROCHLORIDE PF 34(4) Pg. 986 Title, Chemical Info, Definition, Packaging and storage, USP
Reference standards <11>, Identification, Water, Method I <921>, Residue on ignition <281>, Heavy metals, Related
compounds, Assay [Clydewyn Anthony](#) PEA STARCH PF 35(1) Pg. 140 Title, Definition, Packaging and storage,
Identification, Microbial limits <61>, pH <791>, Loss on drying <731>, Residue on ignition <281>, Foreign matter,
Limit of iron, Limit of oxidizing substances, Limit of sulfur dioxide [Hong Wang](#) SULFINPYRAZONE PF 34(6) Pg.
1483 Solubility in acetone, Solubility in 0.50 N sodium hydroxide [Behnam Davani](#)
